TRODAT PREMIUM FLASH

With Trodat's Pre-inked Flash lines you get thousands of crisp and clear impressions, whether you use bold logos or fine lines. In addition they can be re-inked easily for thousands more.

Pre-inked stamps are very popular for large impressions, because the housing of the stamps is relatively small even for stamps with a large imprint area. All Trodat Premium Flash models promote dry cartridge inking concepts for efficient inventory management.

WHAT ARE THE BENEFITS OF MAXLIGHT S-STYLE, PSI E-STYLE AND SUPER SLIM?

Improved Die Box:
Cutting and sealing of foam is done by new laser technology. Therefore no space is wasted, resulting in a larger impression area.

Trodat Flash Machine:
Quick & easy operation - not only foam, but whole die box can be flashed at once.

Convenient Inking:
Fast & clean - no accessory or scale needed. The patented dry cartridge concept allows high inventory flexibility. Trodat Premium Ink migrates under 1h.

1-Step Assembly Maxlight:
The snap-in die box provides the simplest assembling possible.

1-Step Assembly PSI:
The slide-in die box provides the simplest assembling possible.

No Assembling Steps Super Slim:
Super Slim can be flashed and inked as a whole - no extra die box needed. Only the index card needs to be added as always.

TRODAT CLASSIC

The models within the Trodat Classic line are timeless. They are available in various sizes. Whether you require the stamp to feature a date, number, text or the time, you will find the perfect traditional stamp to fit your needs.

Our Classic line is now black. The design reflects the modern, dynamic workplace and is a seamless addition to the existing Professional 4.0 and Printy 4.0 models. Honouring our commitment to sustainability, we are replacing all plastic housings with ABS post-consumer recycled materials. These hand stamps require a separate ink pad.
