Double A

Deliver your best job every time with **Double Quality Paper**

All of our **Double A** papers offer the benefits you'd expect from a company committed to making a better paper for a better world. Consistent high quality. A commitment to the environment. **Double A** delivers all of this so you can deliver your best job every time.

The benefits you'd expect from a company committed to making a better paper for a better world.

No Jam Paper

You'll be frustration free. In an independent test, **Double A** ran through a high-speed copier for 24 hours at one page per second without a single jam.

Sharp Printing

An even, high-density, low-ash surface makes copies as sharp as the original, whether in clear black and white or in vibrant color.

So Smooth

With 30 million fibers per gram, **Double A** Paper has superior formation.

Bright & White

Our paper has impeccable print contrast and actively resists fading.

Copier Friendly

A low-ash content keeps machines moving and prolongs copier life and productivity.

Double-Sided Perfection

High quality fiber for high opacity + premium formation = double-sided with no show through. Two sides for twice the use.

Lasts Longest

Our acid-free paper archives your important information with superior quality for years to come.

Eco-Friendly Label

At **Double A**, sustainability begins with using sustainably grown trees, which mitigates global warming. We source only certified wood or **Double A's** fast growing farmed trees.

Double A is a paper certified « FSC® Mix » with credits method.

The **Double A** Allzay mill FSC CoC has number FCBA-CoC-000414.

Sustainable Products

First and Always

ENVIRONMENTAL SUSTAINABILITY

Being eco-friendly is our number one priority

At **Double A**, sustainability begins with using sustainably grown trees, which mitigates global warming. We source only certified wood or **Double A**'s fast growing farmed trees.

In the Regions where the farming takes place, this sustainable sourcing method also creates positive engagement with the local communities enabling local farmers to earn additional income by growing our patented **Double A Paper-Tree** in vacant spaces between their rice paddies.

SOCIAL SUSTAINABILITY

The KHAN-NA Secret: A Revolutionary Approach to Land

Farmland covers more than 50% of Thailand's surface area. Yet farmers leave areas of land between their rice paddies – known as KHAN-NA – vacant so they can walk the fields. We rent this land from farmers and plant our Paper-Tree there, and in the process bring additional income and much-needed shade to 1.5 million Thai farmers.

We make sure that we foster sustainability from the tree we harvest, where the trees are planted, to recycling waste and rainwater. Our paper supports the earth, our farmers, and our communities.

ECONOMIC SUSTAINABILITY

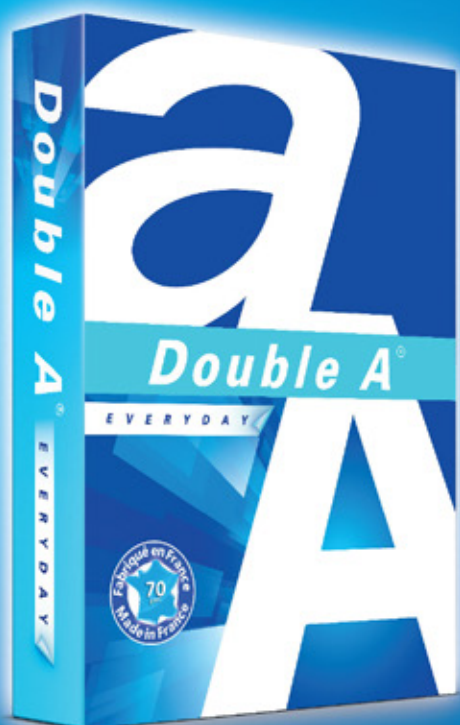

We continually work to exceed the expectations of our key shareholders, government institutions, non-profits, NGOs, banks and financial institutions, trading partners, employees, customers and the community.

From a financial standpoint, the increased incomes for farmers, funds for schools and local and global employment opportunities all contribute to our goals for economic growth and sustainability.

Double A

EVERYDAY

High quality 70 gsm copy paper for everyday use

Double A Everyday weighs in at 70 gsm, making it the thinnest product in our entire range. While it is lighter and thinner than our other paper products, there's no compromise on quality. The **Double A Everyday** copy paper is available in both A4 (210 x 297 mm) and A3 (297 x 420 mm) formats. Simply choose the right format to suit your daily needs and printing requirements.
